Part 2 - Information Quality

1. Explain in detail how you collected this information.

I got this information from a local primary school principal, Naw U---, on May 8th 2019.

2. Explain how the source verified this information.

Naw U--- met with Naw H--- when the latter was pregnant.

Part 3 – Complete Description of the Incident

Describe the Incident(s) in complete detail.

During the 2018 rainy season, Naw H--- was raped by a close male relative in A--- village, Ta Nay Hsah Township. He lured the victim into his hill farm and raped her in his hut.

Naw H--- has an intellectual disability. She did not tell anyone about the rape, but the village leaders questioned her when she started showing signs of pregnancy. At first, she did not tell them who the true perpetrator was, but she ultimately accused her relative after giving birth to a child.

The village leaders arrested and interrogated him on April 27th 2019. He admitted that he had raped Naw H---. Therefore, the village leaders subjected him to physical punishment, after which he was released. The perpetrator was not brought before a formal court of law.

The victim received no compensation and still lives in the same village as the perpetrator. Currently, Naw H--- is staying with another close relative, and her child was adopted by someone living abroad.

Part 4 - Permission for Using the Details

Did the victim(s) provide permission to use this information? Explain how that permission was provided.

The victim gave us permission to use this information. The source also wants us to use this information because she said that the case has not been properly handled by the village authorities. She does not want this kind of incident to happen again.
